**NO. 300
EXTRA HEAVY
STOCK**

We particularly call your attention to the form of our drills. The long flukes permit proper clearance and prevent choking, and being made of a fine quality tool steel, tempered by a special process of heat treatment, we believe these drills to be among the best on the market. Our star drills can be furnished in standard taper shanks for machine use.

OUR "KEYWAY" NEVER TURN LINE OF HIGH GRADE FORGED BLADE SCREW DRIVERS

Made of Highest Quality Tool Steel Highly Polished. Hardwood Mahogany Fluted Handles

The lip forged on the shank of the blade is projected beyond the end of the ferrule.

The blade of our driver is held from turning by the metal ferrule. The ferrule cannot turn because it is wedged on the handle.

PENN TOOL CO.

NEW IMPROVED FORGED SHANK COMPOUND ACTION HI-PRESSURE HEDGE SHEARS

NO. 35 Blade and shank made of High Carbon Tool Steel with special hardened rivets.

A combination hedge and pruning shear that will cut the toughest at ease, and as thick as the full spread of the notch in the shear. One blade notched, other tapered to a fine cutting edge, both meeting together giving an unusual cutting quality. Patented reinforced shank and compound action of the blades; eliminating handle pressure. Has a perfect balance. Handles of hardwood highly finish with heavy steel ferrules. Blades can be disassembled in a jiffy to sharpen or replace, by unscrewing the center bolt.
